

KTFR / Centering Thought Leadership

A key goal of KTFR is for youth to imagine themselves entering the workforce in “Resilience Careers” through mentoring from **Thought Leaders** in fields like hydrology, meteorology, stormwater engineering, conservation and environmental science, emergency and flood plain management, communication and other media arts, plus a wide array of public health and social services.

We gratefully acknowledge the contributions of the following KTFR community Thought Leaders to date:

Dr. Jennifer Albert / Director, The Citadel STEM Center

Dr. Melanie Blanton / Citadel STEM Center

Jared Bramblett / Senior Water Resources Engineer, Moffatt and Nichol, Co-Author Charleston Water Plan

Michael Horton / Chief Engineering Officer, Davis and Floyd
